ADMINISTRATIVE OVERVIEW

Savage Services Corporation
Savage Coal Terminal
C/007/0022
Carbon County, Utah

June 10, 2019

BACKGROUND

The Savage Coal Terminal receives, processes, stores and ships coal from various coal mines in the area. In general, coal is brought in by truck and dumped through 1 of 5 separate truck dump locations. The coal is then screened and/or crushed, washed if required, and conveyed into specific storage areas. When ordered, specific coal is withdrawn from the pile and loaded into the silo by conveyor. The coal is then loaded into a unit train at the silo, and shipped to the desired location.

The site has a long history of coal preparation and loading operations. Utah Power & Light originally leased the site for coal loading operations because of its proximity to the Denver and Rio Grande Western (D&RGW) railroad siding. Swisher Coal Company purchased the SW1/2 of Section 11 for the purpose of developing a preparation and loadout facility for unit coal trains. Original UP&L disturbance occurred in 1975. Expansion activities by Swisher Coal Company were conducted between October 1977 and April 1978. The site was purchased and permitted by ARCO Coal in 1980. The local company name was changed from Swisher Coal Company to Beaver Creek Company. This permit was transferred from Beaver Creek Coal Company to Mountain Coal Company on September 12, 1991.

Mountain Coal Company transferred this permit to Savage Industries, Inc. on July 6, 1995 and changed the name to the Savage Coal Terminal. The name changed from Savage Industries, Inc. to Savage Services, Inc. on January 20, 2003.

The permit area, comprising 153.46 acres, is located approximately four miles south-southeast of Price, Utah, and approximately one mile from the Price River floodplain. The site is characterized by gently-sloping terrain. Soils are fine textured and saline, supporting a salt desert vegetation community.
